

A modern, minimalist sliding wardrobe system is shown in a dimly lit room. The wardrobe features glass doors with dark frames. Inside, there are several shelves and drawers. A brown suitcase sits on the top shelf. Below it, there are white storage boxes and folded clothes. A handbag is visible on one of the lower shelves. The background shows a bed with pillows and a lamp, suggesting a bedroom setting.

FREE UP YOUR FLOOR SPACE

Small rooms, large rooms, alcoves, lofts and all the awkward spaces in-between!
Choose a wardrobe made for every space.

NO SPACE WASTED INSIDE ALCOVES.

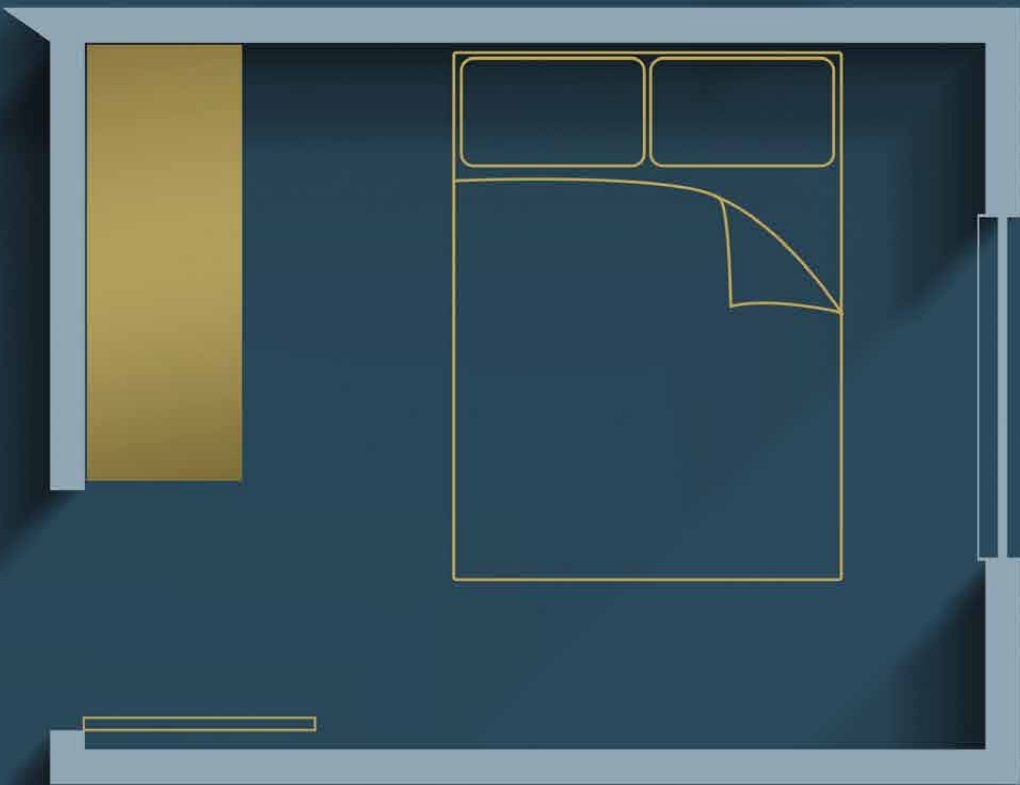

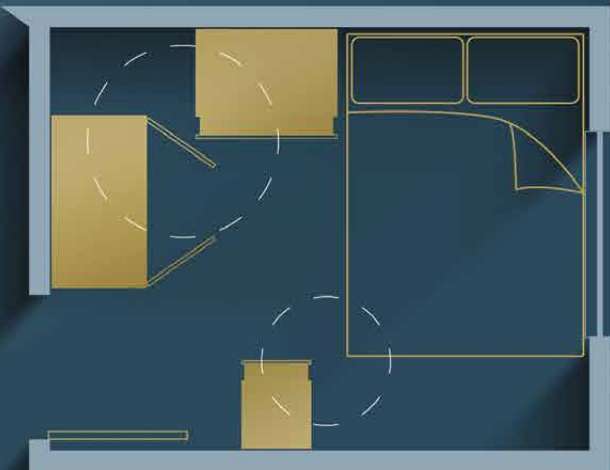

BUILD AROUND DOORS AND WINDOWS,
OR ANY OTHER OBSTRUCTION.

► BEFORE

Hinged wardrobes can restrict movement and limit storage space. Meaning more furniture is needed to store your clothes!

▼ AFTER

Floor to ceiling sliding wardrobes create more storage, allowing you to put everything in one place! Leaving you with more space to move.

SHAKER

The wide Shaker frame perfectly captures the original Shaker design, with a modern edge.

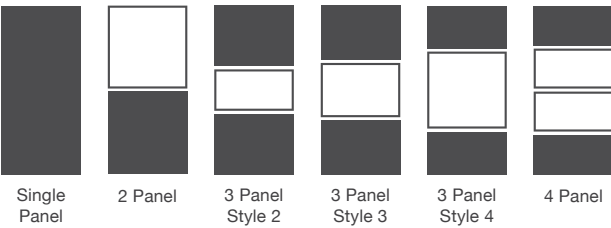

Choose from a wide selection of door designs, with matching frames to panels as well as the option to mix glass / mirror into your designs.

STORAGE SYSTEMS

TOWERS & SHELVING

Our storage systems can be configured in any order to work best for your wardrobe space. Use multiple units to add more shelving or hanging

SHELF & HANGER

The Shelf and Hanger unit (18mm panels) can be cut to any width and placed at any height inside the wardrobe.

Shelf unit measures 118mm. Maximum opening width of 2800mm wide and 500mm Deep.

TOWER UNITS

Available in two widths of 450mm and 600mm with a choice of a 3 drawer combination or shelves only. All drawers come with soft close as standard.

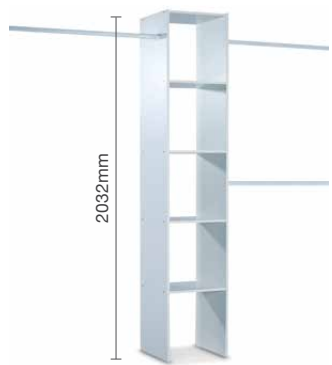

Maximum opening width 2800mm x Tower Unit height 2100mm x Depth 500mm.

FINISHES

BASIX

Our Basix tower unit provides a simple storage solution with the option to add drawers.

BASIX TOWER UNIT*

The Basix unit measures 365mm wide (using 15mm panels) with the option to add drawers.

Maximum opening width 2835mm x Tower Unit height 2032mm x Depth 380mm.

*Only available in White.

BASIX DRAWERS*

2 Drawer pack to be used with the Basix tower unit (sold separately).

Width 330mm x Height 158mm x Depth 376mm.

*Only available in White.

MEASURING UP FOR SLIDING WARDROBES

It's really important to prepare your project by measuring your space, ensuring all doors fit correctly, so they run as smoothly as possible!

WHERE TO MEASURE

Height – No ceiling and floor are perfectly level, so to ensure our doors fit correctly we need 3 measurements A, B and C. Our doors are made to the smallest height to guarantee the doors slide effortlessly.

Width – Measure at the top and bottom of your space D and E approximately 200mm in.

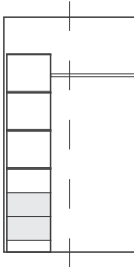

Depth – The wardrobe doors need to be measured and fitted at a minimum depth of 620mm (to the front of the doors). This allows for our storage systems to perfectly fit behind.

INTERIOR PLACEMENT

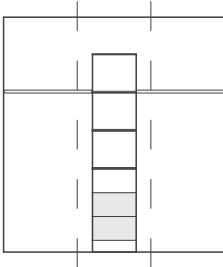

Our storage units can be placed anywhere in the wardrobe, giving you full control over where you place each component. When planning in any drawer unit we recommend the doors being least 100-150mm wider than the drawers, with the drawers themselves placed directly behind the doors (not at an overlap).

EXAMPLE INTERIOR LAYOUTS

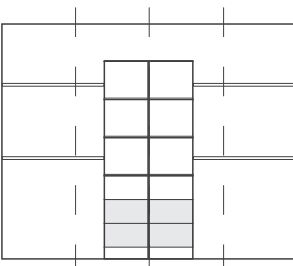

2 DOORS

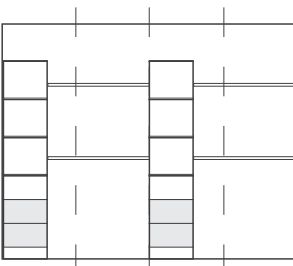

3 DOORS

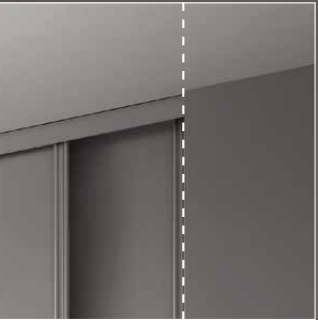

4 DOORS

4 DOORS

Measure between walls, or up to an end panel.

End panels are perfect when building up to a door or window, but always allow for an 18mm panel to be included in the overall width.
