Transforming spaces into favourite places

We all seek spaces where we can truly relax, recharge and feel at ease – or even boost our productivity. More often than not, these favourite places are bathed in natural daylight and fresh air.

For over 80 years, the VELUX Group has helped people reimagine their homes by bringing daylight and fresh air through the roof, creating brighter, healthier environments to live, work, learn and play. It's all part of our mission to improve everyday life for people around the world.

Our award-winning roof windows can fit any roof – flat, pitched, old or new and can be accessorised with VELUX blinds and shutters.

VELUX solutions do more than brighten interiors – they help us create a connection with nature and a space to relax and enjoy. These spaces then become the backdrop for meaningful everyday moments: sharing laughter, bedtime stories or simply enjoying a peaceful pause.

Small, often overlooked pleasures, like these, are what truly make a house feel like home – reminding us of what it means to let life in.

At VELUX® we prioritise sustainability

At the VELUX Group, we continually integrate sustainability into our decision-making, operations and solutions.

The first and only roof window company in the world rated platinum by EcoVadis

We are proud to be the only roof window company in the top 1% of organisations ranked globally by EcoVadis. The platinum sustainability rating reflects our commitment to integrating more sustainable practices throughout our organisation.

97% of VELUX packaging in Europe was plastic-free in 2024*

As of 2024, 97% of our primary packaging in Europe was paper-based and recyclable. Globally, we continue to eliminate plastic packaging from our products, making it easier for you to recycle and minimising the impact on the planet.

* In 2024, 97% of Residential primary packaging in Europe was paper-based.

96% of our products have an Environmental Product Declaration**

With more transparency over the environmental impact of our products, you can make more informed decisions about most VELUX products.

** Roof windows, flashings and installation products, excluding copper and zinc variants.

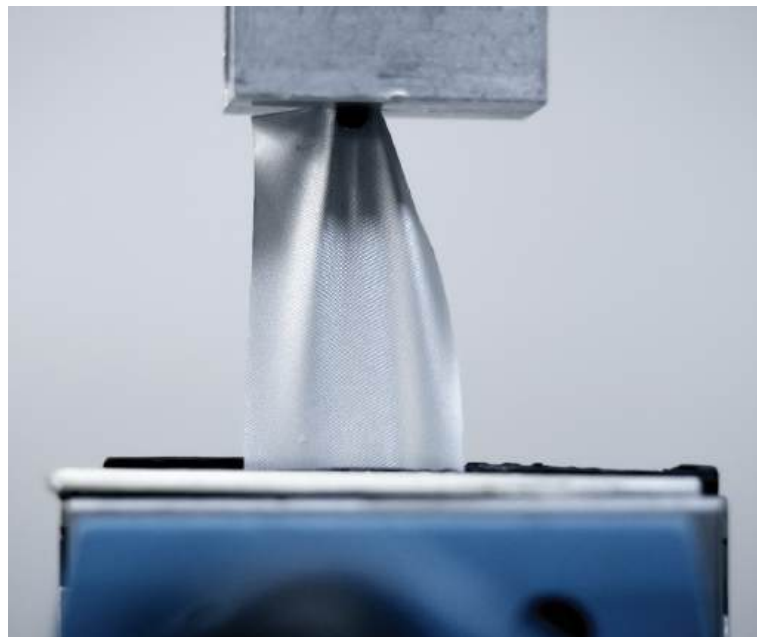

Why VELUX

Your VELUX roof windows deserve original blinds and shutters, for a perfect fit, beautiful design and long-lasting performance.

1

Designed and tested for daily life

All VELUX products are **designed and tested for real life**. Our blinds are drawn thousands of times and exposed to extreme heat. Our shutters endure relentless battles with sun, wind, rain and snow. We pull, tug and squeeze the material to ensure your product retains its colour and shape through years of use. Then, when we are happy with the design, our European factories start production.

2

Easy to install and use

Original VELUX blinds and shutters are **tailor-made for your VELUX roof windows**. This means they always fit perfectly and are easy to install – with no measuring or cutting. The elegant and slim frame design **ensures a perfect looking result**, making the blind almost invisible when not in use.

3

Your colours for your home

Enjoy an extensive choice of blind and shutter types in all styles and colours. You can even create your own customised blind with our **Colour by You** collection. All with a choice of white or brushed aluminium side rails.

4

For safety and sustainability

VELUX blinds have **child-safe cordless designs** to ensure safety in your home. And all our interior blinds are certified with OEKO-TEX® STANDARD 100 (1076-184) – The original safety standard and OEKO-TEX® STeP (22002567) – Responsible production for people and planet. VELUX Anti-heat blackout shutters offer dual functionality, protecting your room from overheating while actively deterring break-ins.

Discover our timeless collection

From classic to trendy, from light dimming to complete blackout, the VELUX blind collection features stylish colours, subtle patterns and a range of features to match all room types.

The VELUX blind collection is developed in partnership with leading international trend experts. Choose from a large variety of fabrics and colours in classic or more modern designs.

We offer three different **roller blinds** with flat fabrics, two types of **pleated blinds**, as well as our classic **Venetian blinds**. All varieties come in a range of colours

for you to mix or match by choosing different or similar colours across your rooms and blind types.

Your choice of blind depends entirely on your personal style, the room type, and whether you are looking to create a complete blackout or light filtering effects. Explore the following pages for more inspiration.

veluxblindsdirect.co.uk/colour

Blackout or translucent blinds?

Blackout blinds will block any incoming light, making them a preferred choice for bedrooms and children's rooms where darkness is needed for a good night's sleep.

Translucent blinds allow soft, diffused light to enter the room while effectively reducing glare. They are suitable for various spaces, including living rooms, home offices, and game rooms.

Clean all white look

VELUX blinds are available with high-quality side rails in your choice of either brushed or white-painted aluminium.

Brushed aluminium works exceptionally well with our lacquered wood-finish roof windows while the white painted rails become almost invisible when paired with white VELUX roof windows. Furthermore, thanks to their UV-protection, the bright white will stay unaffected by sunlight.

The side rails are easy to install and designed to complement your VELUX roof windows beautifully.

Optimal light and climate control for all year round comfort

Focus Complete solution

VELUX roof windows fill your home with daylight and fresh air. Having the right weather and sun protection also ensures a pleasant indoor climate and helps save energy.

Exterior weather and heat protection

Choose Anti-heat blinds and shutters to create a shield between the sun's rays and the roof windows to prevent direct sunlight from entering the home. Rain noise is also significantly reduced.

More information from page 24.

Interior light control

Choose interior blinds to complement a room, soften incoming light or provide privacy – or blackout to ensure a good night's sleep or a daytime nap. In the colder months, they will help to keep the room warm and create a cosy atmosphere.

More information from page 28.

Anti-heat blackout shutter + Blackout energy pleated blind

Up to 5°C* cooler in summer + heat energy savings in winter.

Add Insect screens to enjoy fresh air without unwanted visitors

More information from page 45.

* Data from a simulated south-facing room with two VELUX GGU 70 roof windows in size MK06 (78.0 x 117.8cm), July – August 2023, recorded in London. Based on a study by VELUX 2023 on the effects of accessories in summer.

Combine interior and exterior blinds

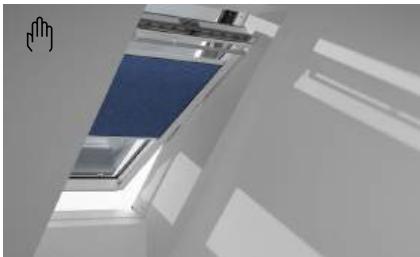

Find your perfect pairing with a manual interior blind and exterior Anti-heat blind.

- Combine a manual interior blind and exterior Anti-heat blind and enjoy double the benefit, for less.
- Interior blinds are available in 4 standard colours and in 2 side rail options – white or brushed aluminium.
- The manual Anti-heat blind comes with simple-to-handle hook fixing for positioning on the outside of your roof window.
- Transparent fabric lets in light and retains the view to the outside.
- Easy self-installation from the inside.

More flexible and intuitive than ever before

Our solar and electric blinds range can be easily operated remotely or manually via a slider, positioned directly on the product.

The design offers a number of product benefits:

Optimised design

The slimmer profile along the bottom of the blind integrates seamlessly with the roof window, providing an unobstructed view and maximum daylight.

Quieter motor

Regardless of operation, the motor runs almost without sound.

A solution to suit everyone

Available in a wide range of colours and fabrics including blackout, energy pleated and translucent.

Even longer guarantee

Comes with an extended guarantee of 5 years.

Unique design
Available in a wide range of colours.

Slimmer profile
Lets in maximum daylight.

Multiple operation
Operate remotely or manually via the slider.

Easy control options for your VELUX solar and electric products

Operate all your solar and electric roof windows, blinds and shutters with either a remote or an app.

Scan below to learn more about the range of control options

Multiple product switch

VELUX Touch
VELUX Touch is a multiple product switch that makes it easy to operate solar and electric roof windows, blinds and shutters. Control ventilation, block sunlight or close blinds with one master switch.

VELUX App

VELUX App Control
VELUX App Control is an app that makes it possible to operate all VELUX solar and electric products from a smartphone, enabling easy operation of roof windows, blinds and shutters.

VELUX App with sensor

VELUX ACTIVE with NETATMO
VELUX ACTIVE is an app with a sensor that can be used to operate all solar and electric products from a smartphone. It uses indoor climate sensors to monitor temperature, CO₂ and humidity in the home.

Installing blinds and shutters is easier than you think

Interior light control

Install original VELUX blinds in 15 minutes

Installing VELUX blinds requires no measuring, trimming, cutting or extra tools. They are made for a perfect fit and everything needed is included in the package.

No need to measure

Find the roof window's type and size on the window frame – see how on page 50. Then you can be sure that the new blind fits the roof window perfectly without having to take any measurements.

No need to cut or trim – it just clicks

VELUX roof windows have pre-installed brackets for the blinds. Simply click on the original VELUX blind and add the tailored side rails.

Easily replace old blinds with new ones

It is straightforward to replace old blinds with new ones from VELUX. Everything needed is included in the package.

Exterior heat protection

Easy installation from inside.

VELUX Anti-heat blinds and shutters are designed for quick and convenient installation from inside your home, no need to climb onto the roof. Step-by-step instructions make installation straightforward and hassle-free. If you are a DIY enthusiast with a bit of technical confidence, you might even prefer to install it yourself.

Perfect fit.

VELUX exterior heat protection products are available in a wide range of roof window sizes, ensuring seamless integration and optimal performance. Enjoy effortless installation and a perfect finish, every time.

Solar powered – no wiring is needed.

For those with a do-it-yourself mindset, our solar Anti-heat blind and Anti-heat blackout blinds can be installed from inside the room without the need for any wiring. Daylight powers the integrated solar cell, allowing for operation via a wireless wall switch, thereby providing optimal convenience.

Outdoor protection, indoor comfort all year round

Our wide range of VELUX exterior Anti-heat products helps protect your home from overheating in the summer and provides extra insulation on cold days, keeping your indoor temperature comfortable. Our solar products use daylight energy as their power source, eliminating the need for wiring and offering a seamless installation from inside the room.

All year round temperature control

Create a shield between the sun's rays and your roof windows to prevent the direct sunlight from entering your home. This helps to keep the indoor temperature cooler, reducing the need for air conditioning and lowering energy costs. In colder months, shutters provide an additional shield from the outside to keep the warmth in.

Durability and longevity

Crafted from high-quality materials, our Anti-heat blinds and shutters are designed to withstand the harshest weather conditions, while maintaining their functionality and visual appeal for years to come.

Easy installation

Designed to seamlessly match your VELUX roof windows, our products offer a hassle-free installation. With installation taking place from inside the room, you'll have your new Anti-heat blinds or shutters up in no time!

Discover the exterior blind or shutter that best meets the needs of your home.

For old VELUX roof window generations (VES), a ZOZ 238 installation kit set is needed.

For VELUX electric top-hung roof windows, a ZOZ 229S kit set is needed.

KUX 110 control system is needed if you install an MML into a manually operated VELUX roof window.

* Data from a simulated south-facing room with two VELUX GGU 70 roof windows in size MK06 (78.0 x 117.8cm), July – August 2023, recorded in London. Based on a study by VELUX 2023 on the effects of accessories in summer.

** For installation on solar-powered roof windows size C or F one (or two) dual solar switch(es) ZOZ 246 must be added — read more on page 51.

Nature collection

For design and environmentally-conscious consumers, our Nature collection roller blinds come in a range of colours that allow you to bring the peace and tranquility of nature directly into your home. The blinds are made from a minimum 50% recycled fabric and 75% recycled aluminium and have a lower carbon footprint than the standard option. All with a 50% lower carbon footprint during production compared to ordinary VELUX blinds.

Blackout roller blind DKY

- Excellent blackout to darken the room.

Translucent roller blind RFY

- Softens incoming light and provides privacy.

Blackout roller blind DKY and Translucent roller blind RFY

- Available with white or brushed aluminium side rails.
- Combine with an exterior Anti-heat blind or shutter for effective heat protection. Read more on page 24.
- Combine with an Insect screen to enjoy fresh air without unwanted visitors. Read more on page 45.

✓ Installation – it just clicks

- Click on the blind. Add side rails. That's it. Original VELUX blinds are tailored to your roof window, making installation fast and easy.

Certifications

- OEKO-TEX® STANDARD 100 (2276-378) – The original safety standard
- OEKO-TEX® STeP (22002567) – Responsible production for people and planet
- Our products hold verified EPD certificates complying with the European Standard EN 15804+A2

Blackout energy pleated blind

VELUX Blackout energy pleated blinds provide both blackout and insulation, perfect for bedrooms that need blackout at night and extra insulation. Adjust the blind from the top or the bottom* to let in exactly the right amount of light.

- When installed, the blind can reduce window heat loss by up to 21%** for increased comfort.
- Blackout for a great night's sleep or a nap during the day.
- Insulation for increased comfort during colder months.
- A flying blind design that can be placed anywhere on the roof window.*
- Upgrade to a solar or electric blind to enjoy complete light-control at your fingertips.
- Available with white or brushed aluminium side rails.
- Combine your manual blind with a manual Anti-heat blind and save 10%. Read more on page 12.
- Combine with an Insect screen to enjoy fresh air without unwanted visitors. Read more on page 45.

Insect screen

Enjoy fresh air without unwanted visitors with a VELUX Insect screen. The screen is simple to operate and can be combined with any other VELUX interior or exterior blind. It has transparent net fabric and stows neatly away in the slim top casing when not in use.

- 100% insect-proof material.
- Transparent net fabric does not obstruct your view.
- Durable, wind-resistant fabric for long-lasting performance.
- OEKO-TEX® STANDARD 100 (1076-184) – The original safety standard.
- OEKO-TEX® STeP (22002567) – Responsible production for people and planet.
- The screen can be combined with any other VELUX interior or exterior blind.

Determine the correct size

- Measure the inner wall width (**A**) and height (**B**) to find the size code and price of your insect screen in the table below
- If you have two heights (**B**) or heights above 2400 mm – two insect screens and one connector set ZOZ 157 SWL are needed.
- IMPORTANT:** Insect screen size codes may differ from window size code, please measure (**A**) and (**B**) and find correct size code in the table below before ordering

Blinds for curved and flat glass rooflights

Anti-heat blind

The Anti-heat blind provides light dimming and heat protection to maintain a cool and comfortable room. The blind is discreetly placed inside the rooflight, and is easily installed from the roof when installing the rooflight.

- Reduces overheating.
- Semi-transparent fabric for light control and sky view.
- Solar-powered blind with remote control.
- Not compatible with Blackout blind.

Blackout blind

VELUX Blackout blind for glass rooflights blocks outside light anytime and is perfect for bedrooms. It is discreetly placed inside the rooflight and easily installed from the roof when installing the rooflight.

- Perfect sleep — day or night.
- 99.9% blackout.
- Great for bedrooms and media rooms.
- Solar-powered blind with remote control.
- Not compatible with Anti-heat blind.

Insect screen

VELUX Insect screen for glass rooflights lets you enjoy fresh air and a view to the sky without the distraction of insects. It comes in a contemporary white design and is easy to install and simple to remove for cleaning.

- Fresh air and 100% insect-proof.
- Durable, transparent net fabric does not obstruct your view.
- Can be combined with an Anti-heat blind or a Blackout blind.

Blinds are placed inside the rooflight and mounting is therefore most convenient during the rooflight installation process.

Order your new VELUX blind or shutter in five easy steps

1	2	3	4	5
Locate your roof window type and size	Select blind or shutter type	Select operation	Select colour	Place your order
Find your roof window type and size by checking the type sign placed either on the left or right side of the roof window frame when it is open. See picture below for placement of type sign.	Decide on the type of blind or shutter: blackout, light adjustment, heat protection, etc.	Select solar, electric or manual operation, depending on the placement and type of roof window.	Each of our blind colours has its own colour code, which you can see on the respective blind pages. You can order free fabric samples at veluxblindsdirect.co.uk Please note: Precise colour may vary from the printed samples.	Order on veluxblindsdirect.co.uk or by speaking to one of our dealers or a customer service representative.

Extras for your blinds and shutters

Rod control	Rod adaptor	Mounting brackets
ZCZ 080 80cm £19.20 ZCT 200 telescopic 100-180cm £40.80 The rod makes it easy to operate out-of-reach manual blinds.	ZOZ 085 £12.00 Adaptor for manual blinds with control bars supports easy operation with the rod.	ZOZ 230 £8.40 For installation of blinds on older VELUX roof windows without pre-installed mounting brackets.

Installation kit	Installation kit	Dual solar switch
ZOZ 238 £33.60 For installation of Anti-heat blackout blinds and electric Anti-heat blinds (SSS, MSL or MML) on VELUX roof windows from before 2001.	ZOZ 229S £57.60 For installation of Anti-heat blackout blinds and electric Anti-heat blinds (SSS, MSL or MML) on VELUX electric top-hung roof windows.	ZOZ 246 £73.20 Dual solar switch allows charging of both shutters and Anti-heat blinds on solar-powered VELUX roof windows. Dual solar switch is required if the shutter or Anti-heat blind is size C or F and installed on a solar-powered VELUX roof window.

Customer service
